

# Missed Appointment Policy

Your treatment program consists of a specific series of treatments given over a pre-planned time span. It is important that you follow this plan in order to achieve the desired results.

- Keep all your recommended appointments. Arrange the activities in your life so that this can occur.
- You will be notified (via text, email, voicemail) 1-3 days prior to each appointment (as a friendly reminder)
- If you are 10 minutes or more late w/no call, your appointment may become a missed appointment.
- With less than 24-hr notice of cancelation of any/all appointment(s), a full charge for the service(s) missed will be added to your account or deducted from an active wellness package.
- If you miss 3 or more appointments, all future appointments will require full payment when scheduling the next appointment.
- If you become ill, Dr. Arnette would prefer to connect with you via a Telemedicine Appointment so he can help speed your recovery.

***I have read, understand and agree with the above policy.***
